## United States and Territories Resources

*The following resources are provided for each State and Territory:*

**State Mental Health and Substance Abuse Agencies**—For more information about admission, care, treatment, release, and patient follow up in public or private psychiatric residential facilities, contact your State mental health and substance abuse agency.

**State Protection and Advocacy Agencies**—Each State has a protection and advocacy agency that receives funding from the Federal Center for Mental Health Services. Agencies are mandated to protect and advocate for the rights of people with mental illnesses and to investigate reports of abuse and neglect in facilities that care for or treat individuals with mental illnesses. These facilities, which may be public or private, include hospitals, nursing homes, community facilities, board and care homes, homeless shelters, jails, and prisons.

Agencies provide advocacy services or conduct investigations to address issues that arise during transportation or admission to such facilities, during residency in them, or within 90 days after discharge from them.

**Regional Alcohol and Drug Awareness Resource (RADAR) Network State Center**—Each State has one RADAR Network State Center that serves as a centralized information and distribution service for substance abuse prevention and treatment.

# About the Substance Abuse and Mental Health Services Administration

**[www.samhsa.gov](http://www.samhsa.gov)**

The Substance Abuse and Mental Health Services Administration (SAMHSA), an agency of the U.S. Department of Health and Human Services (HHS), was established by Congress in 1992, under Public Law 102-321, and reauthorized in 2000, under Public Law 106-310. The agency was created to focus attention, programs, and funding on improving the lives of Americans by strengthening the capacity of the Nation's health care delivery system to provide substance abuse prevention, addiction treatment, and mental health services. In collaboration with the States, national and local community- and faith-based organizations, and public and private sector providers, SAMHSA is working to ensure a life in the community for everyone.

The agency has three Centers: the Center for Mental Health Services (CMHS), the Center for Substance Abuse Prevention (CSAP), and the Center for Substance Abuse Treatment (CSAT). SAMHSA also includes the Office of Applied Studies and several other staff offices that support administrative, policy, and communications activities. Through its three Centers and supporting Offices, SAMHSA engages in program activities to carry out its mission: To build resilience and facilitate recovery for people with or at risk for substance use disorders and mental illnesses.

## **Center for Mental Health Services**

**[www.mentalhealth.samhsa.gov](http://www.mentalhealth.samhsa.gov)**

The Center for Mental Health Services (CMHS) leads Federal efforts in expanding the availability and accessibility of high-quality, community-based services for adults with serious mental illnesses and children with serious emotional disturbances. CMHS administers the Mental Health Services Block Grant Program—the single largest Federal contribution to improving mental health service systems across the country—as well as a portfolio of discretionary grant programs that include efforts to help prevent mental health problems. The Center collects, analyzes, and disseminates national data on mental health services and supports SAMHSA’s National Mental Health Information Center, a one-stop source for free information, resources, and referrals on an array of mental health topics

## **Center for Substance Abuse Prevention**

**[www.prevention.samhsa.gov](http://www.prevention.samhsa.gov)**

The Center for Substance Abuse Prevention (CSAP) works to improve the quality of substance abuse prevention practices in every community, nationwide. Through its discretionary grant programs, the Center provides States, communities, organizations, and families with tools to promote protective factors for substance abuse. CSAP also supports the National Clearinghouse for Alcohol and Drug Information (NCADI), the largest Federal source of information about substance abuse research, treatment, and prevention available to the public

## **Center for Substance Abuse Treatment**

**[www.csat.samhsa.gov](http://www.csat.samhsa.gov)**

The Center for Substance Abuse Treatment (CSAT) promotes the quality and availability of community-based substance abuse treatment services for individuals and families who need them. CSAT works with States and community-based groups to improve and expand existing substance abuse treatment services under the Substance Abuse Prevention and Treatment Block Grant Program. CSAT also supports SAMHSA’s free treatment referral service to link people with the community-based substance abuse services they need

## **Office of Applied Studies**

**[www.oas.samhsa.gov](http://www.oas.samhsa.gov)**

The Office of Applied Studies (OAS) collects, analyzes, and disseminates national data on behavioral health practices and issues and is responsible for the annual *National Survey on Drug Use and Health*, the *Drug Abuse Warning Network*, and the *Drug and Alcohol Services Information System*, among other studies.

## Information Clearinghouses
